Summary

Certified Full Stack Web Developer from Geekster with hands-on experience in developing responsive and scalable web applications. Skilled in React.js, Node.js, Express, and MongoDB. Strong understanding of both frontend and backend development with a focus on clean code, performance, and user experience.

Education

Amity University Online — **Pursuing**
Master of Computer Applications — *Noida, Uttar Pradesh*

R.C Patel Institute of Management Research and Development — **2021 – 2023**
Bachelor of Business Administration — *Shirpur, Maharashtra*

Experience

I-Tech System — **Jan 2025 – May 2025 (5 Months)**
Frontend Developer and Mentor — *Nashik, Maharashtra*

- Gained 5 months of hands-on experience as a Frontend Developer and Mentor, focused on responsive website development and training students in HTML, CSS, and JavaScript.
- Developed responsive websites using HTML, CSS, and JavaScript for internal projects.
- Guided students through live coding sessions and helped resolve real-time issues to improve their practical understanding of HTML, CSS, and JavaScript.

Acma Grade | Internship — **13 Aug 2024 – 14 Sep 2024**
Frontend Developer — *Remote*

- Built interactive UI components and responsive landing pages using HTML, CSS, and JavaScript.
- Applied responsive design principles to ensure seamless experience across mobile and desktop devices.

Certification

Geekster | Full Stack Web Development Bootcamp
Remote

- Participated in various Geekathons organized by the platform to build and present innovative projects.
- Built real-world projects like Amazon Clone, Gmail Clone during the bootcamp.
- Technical Stack Learned: HTML, CSS, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Git, GitHub, Postman, VS Code, Netlify, Vercel.

Projects

Instagram Clone | *React.js, Tailwind CSS, Framer Motion, Axios, Node.js, Express.js, MongoDB, JWT, Cloudinary*

- Developed a responsive Instagram-like social media web app with post upload, like/unlike, and comment functionality.
- Implemented secure JWT-based user authentication with protected routes and session handling.
- Enabled profile editing through a modal, with real-time updates to user information stored in MongoDB.
- Created a prefix-based user search with recent search history for fast and efficient lookup.

Personal Portfolio | *React.js, Tailwind CSS, Framer Motion, MUI Icons*

- Designed and developed a fully responsive personal portfolio website showcasing projects, skills, and contact form.
- Used Framer Motion to implement smooth entrance animations for various sections and components.
- Integrated MUI Icons for consistent and modern UI elements throughout the site.
- Implemented modular and reusable React components with a mobile-first design approach using Tailwind CSS.

Amazon Clone | *React.js, Tailwind CSS, MUI Icons, Redux, Firebase Authentication*

- Built a fully responsive e-commerce website inspired by Amazon, with features like product listing, cart, and user authentication.
- Used Redux for efficient state management of cart, user sessions, and product data.
- Integrated Firebase Authentication for secure user login and registration using email/password.
- Designed UI using Tailwind CSS and MUI Icons for a clean and modern shopping experience across devices.

Technologies

Languages: Java, HTML, CSS, JavaScript
Frameworks: React.js, Tailwind CSS, Node.js, Express.js
Library: Redux, FramerMotion, Gsap, MUI Icons
Databases: MongoDB, Firebase, Cloudinary
Tools: GitHub, VS Code, Postman, Thunder Client, Render, Railway, Vercel, Netlify
